Providing regional BWA lines to public free Wi-Fi services -Contributing to improving quality and convenience of G Free, a free Wi-Fi service in Ginza, Tokyo-

TOKAI Holdings Corporation announces that Tokyo Bay Network Co., Ltd. (Head Office: Koto-ku, Tokyo; President and Representative Director: Masahiko Takada; hereinafter "TBN"), its consolidated subsidiary, provides a regional BWA line for access points of G Free (GINZA Free WiFi), a free Wi-Fi service provided in Ginza, Chuo-ku, Tokyo.

In August 2018, TBN received a radio station license for regional BWA in Chuo-ku, Tokyo from the Kanto General Communications Bureau, Ministry of Internal Affairs and Communications, and started providing radio communication services for the general public in January 2019. Currently, Wi-Fi spots for public use are maintained at ward facilities and are being used as evacuation shelter Wi-Fi in the event of a disaster.

"G Free" started on the roadside of Ginza with the aim of providing Wi-Fi service that can be used easily anytime, anywhere, for anyone, for free. Already, "Ginza Street", "Harumi Street", and "Nishinamiki Street" are provided in cooperation with each shopping street and commercial facility. This time, for the purpose of improving the quality and convenience of this Wi-Fi service, it will be switched to the regional BWA line owned by TBN.

The Group's CATV operating companies will continue to improve corporate value by contributing to the community and society through the construction of disaster prevention networks in cooperation with local governments and the provision of services such as free Wi-Fi spots, using regional BWA lines. We will also develop and provide services for general users, aiming to strengthen profitability and expand the customer base in this business area.
